

AM Best Mobile App

The AM Best Mobile App helps consumers and professionals make more informed personal and business decisions by providing ratings, research, news, financial data and other insurer information. Available for iPad, iPhone and Android phones, the app provides complimentary access to the latest Best's Credit Ratings, Best's Performance Assessments, and news and research headlines. Select AM Best product subscribers also benefit from exclusive access to additional company information.

Discover why Best's Credit Ratings are used worldwide to assess the acceptability and credibility of insurance providers, and gain valuable insight into current and historical trends affecting the insurance industry with AM Best's news and research. The AM Best Mobile App helps support our mission to provide accurate, timely and comprehensive information on the creditworthiness and financial strength of insurance companies and the performance of related parties in the industry.

The AM Best Mobile App lets you:

- Gain valuable insight into organizations by reviewing:
 - Current and historical ratings or performance assessments
 - Management teams
 - Key financial indicators
 - Market coverage both geographically and by line
- Refer to Best's Credit Ratings to assess the acceptability and credibility of insurance providers
- Monitor the financial strength and creditworthiness of insurance companies and stay up to date with recent activities
- Gain AM Best's perspective on current trends affecting the insurance industry

(Some company information is available only to select AM Best product subscribers.)
