

BestESP covers you from start to finish—from importing and preparing data to printing and filing.

We support filing for the following statements/supplements:

- Property/Casualty (including Combined Companies)
- Life, Accident & Health/Fraternal (including Separate Accounts)
- Health
- Title
- New York Supplement (for Property/Casualty; Life/Health; and Health)
- Risk-Based Capital (for Property/Casualty; Life, Accident & Health; and Health)

We provide features that allow you to easily navigate NAIC documentation:

- Quickly reference NAIC instructions, with page-specific access integrated into each statement page.
- Display a listing of NAIC changes using NAIC Blanks with mark-ups.
- View extensive NAIC validation reporting to ensure your statement is complete and correct before submission.

We offer streamlined setup and support:

- Set up administrator rights to tailor user access depending on your business needs.
- Migrate data into your current-year configuration with options that incorporate prior-year company information, supplemental interrogatory responses and page settings.
- Add external documents (PDF, JPG, DOCX, etc.) for Schedule Y, Actuarial Opinion, MD&A and similar pages.
- Maintain a comprehensive audit log of user activity within the statement pages.
- Get individualized application support from setup to filing from our dedicated Technical Support Services team.
- Expand your application knowledge by accessing training materials, such as e-learning modules and webinars.

We have various tools to enhance your experience:

- Expedite and improve the process of creating your Notes to Financial statements by linking your electronic data and tables to our Notes to Financial interface, eliminating duplication of work and the possibility of data mismatches.
- Use “breakout lines” for APC filings to automatically create Schedule P summary pages and take advantage of a more robust RBC Schedule P import process.
- Present professional-looking output with our superior print format capabilities.
- Reconcile your data by utilizing the AM Best process for all inter-page calculations.
- Complete your statement’s State Page by Line of Business or by State.
- View and print calculated IRIS test ratios in the annual P/C and L/H versions.
- Be in control of your filings (original, amended and refiling), PDF output files and user accessibility.

AM Best: Our Insight, Your Advantage™
