

# BestESP®

## Electronic statement preparation for US quarterly and annual statutory and Risk-Based Capital filings

**BestESP covers you from start to finish—from importing and preparing data to printing and filing.**

We support filing for the following statements/supplements:

- Property/Casualty (including Combined Companies)
- Life, Accident & Health/Fraternal (including Separate Accounts)
- Health
- Title
- New York Supplement (for Property/Casualty; Life/Health; and Health)
- Risk-Based Capital (for Property/Casualty; Life, Accident & Health; and Health)

We provide features that allow you to easily navigate NAIC documentation:

- Quickly reference NAIC instructions, with page-specific access integrated into each statement page.
- Display a listing of NAIC changes using NAIC Blanks with mark-ups.
- View extensive NAIC validation reporting to ensure your statement is complete and correct before submission.

We offer streamlined setup and support:

- Set up administrator rights to tailor user access depending on your business needs.
- Migrate data into your current-year configuration with options that incorporate prior-year company information, supplemental interrogatory responses and page settings.
- Add external documents (PDF, JPG, DOCX, etc.) for Schedule Y, Actuarial Opinion, MD&A and similar pages.
- Maintain a comprehensive audit log of user activity within the statement pages.
- Get individualized application support from setup to filing from our dedicated Technical Support Services team.
- Expand your application knowledge by accessing training materials, such as e-learning modules and webinars.

We have various tools to enhance your experience:

- Expedite and improve the process of creating your Notes to Financial statements by using our Notes Creator template, eliminating duplication of work and the possibility of data mismatches.
- Present professional-looking output with our superior print format capabilities.
- Reconcile your data by utilizing the AM Best process for all inter-page calculations.
- Complete your state pages either by line of business or by state, depending on your preference.
- View and print calculated IRIS test ratios in the annual P/C and L/H versions.
- Be in control of your filings (original, amended and refiling), PDF output files and user accessibility.

### **AM Best: Our Insight, Your Advantage®**

As a full-service credit rating agency specializing in the insurance industry, AM Best understands the importance of high-quality insurance company data. *BestESP* puts our decades of experience with insurer financial statements to work for you.

AM Best is a stable market participant that you can count on to provide financial statement preparation tools that evolve along with your business needs.

Not only do we offer budget-friendly pricing with no hidden fees that's economical for any size company, we provide complimentary training webinars and e-learning modules so you can maximize the value of your purchase.
