

Best's Insurance Professional Resources

**Raise Your
Visibility in
the Insurance
Industry**

About *Best's Insurance Professional Resources*

In 1929, AM Best added *Best's Recommended Insurance Attorneys* to its growing number of insurance industry-focused publications. Our founder, Alfred M. Best, started the publication after he had received numerous requests from insurance officials for recommendations of attorneys who could handle insurance-related litigation and legal services. The publication was expanded to include adjusters in 1930 and expert service providers in 1973. Many of our Qualified Members have been part of this resource for over 75 years.

Today, *Best's Insurance Professional Resources* features online profiles of our client-recommended Qualified Members, complete with contact information, practice areas and specialties, locations, personnel bios and links to their websites and social media accounts. Our search feature help users easily find the right firm or company to meet their needs, with filters such as practice/specialty area, geographical location or key words.

In addition, our website includes a variety of resources, such as claims-related news, webinars, video interviews, Best's Insurance Law Podcasts and more.

Our audience consists of professionals in the following fields:

- Adjusters
- Consultants
- Educational Institutions
- Expert Service Providers
- Government Offices
- Insurers
- Law Firms
- Reinsurers
- Risk Managers
- Third-Party Administrators

Qualified Member Benefits

Webinar Benefits

- Webinars are promoted prior to the live event through emails to targeted audiences, a press release and social media posts.
- Registration is free for attendees and open to everyone.
- Webinar recuts, brief videos that outline key aspects from the live event, are published on AM Best's website, giving participants continued exposure.

2025 Webinars

Demonstrate your insight and thought leadership to a wide audience of insurance and insurance-related decision makers by participating in or sponsoring a *Best's Insurance Professional Resources* webinar.

We're looking for Qualified Members with insight into these upcoming topics:

Quarter One - Claims Litigation in the Automated World

Autonomous vehicles and a new wave of self-directed equipment and systems are putting a fresh focus on liability and subrogation issues. A panel of attorneys, adjusters and experts examines where claims are expected, how they can be investigated and what steps insurers can take to support litigation defense.

Quarter Two - Digital Forensics

Date to Be Announced - The Effective Expert Witness

A panel discusses the background, certification, credentials and characteristics attorneys seek when retaining expert witnesses.

Date to Be Announced - Trends in Insurance Panel Counsel

Attorneys and insurance claims officers investigate how insurers and providers are utilizing panels, including qualifications, certifications and commitments required.

Webinar topics and scheduling subject to change.

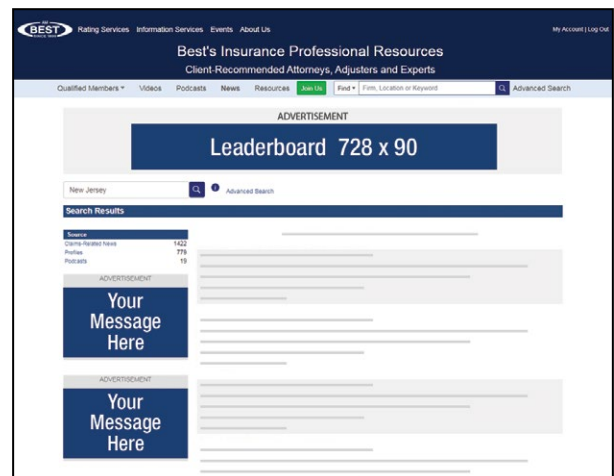

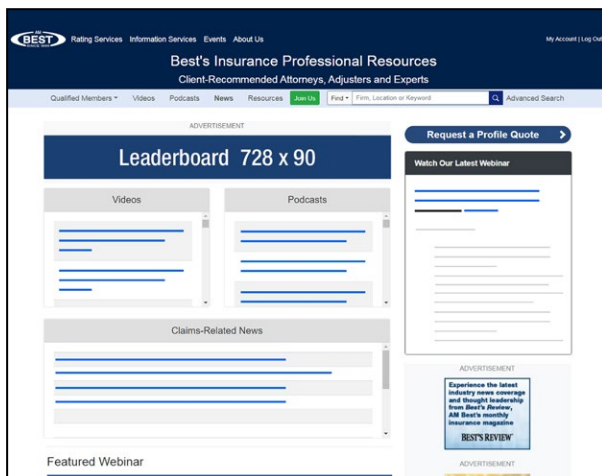

Advertising

Best's Insurance Professional Resources offers several powerful advertising opportunities. Raise your company's visibility to AM Best's audience of top-level professionals by placing your message on our website, monthly emails or webinars. Qualified Members receive a **special rate** on advertising. Please contact us for details.

About Us

Jones Engineering, Inc. is a full-service forensic engineering company. We offer a wide array of services catering to the needs of each and every client. We offer locates, backgrounds, web canvassing, and we specialize in overall situational awareness and successful surveillance operations throughout the United States with electronic delivery of reports and video footage. Since 1993, we have handled over 25,000 claims-related surveillance assignments. We boast a video ratio of over 90% and typically show our clients an average return of over 100% on their surveillance investment.

Having been in business since 1993, we offer a complete understanding of many types of forensic engineering and client needs. Our goal is to consistently provide result-oriented investigations to our clients whether they are a small private client or a large national corporation. Slow and steady growth from repeat and referred clients is the secret to our success! All employees are set up to access their case files remotely, allowing convenience, flexibility, and efficiency to our work environment. We pride ourselves on our ability to offer quick turnaround times with results that have been proven to mitigate high and low exposure claims.

Services Rendered

- Successful Surveillance Operations
- Insurance Fraud Investigations
- Litigation Support
- Background Investigations
- Due Diligence
- Insurance Litigation Support
- Litigation Preparation

'Access Alerts' and 'Digital Discovery' products enable us to identify digital footprints for each subject and continuous monitoring of the subject's online activities. Access began developing these types of smart web searches back in 2001 and has been continuously improving these products since. We developed our own proprietary methods that have proven to be far more effective than our competition for claims and litigation preparation. We provide services nationwide. If you are the decision maker for a WC, LTD, FELTA, Auto claims program or responsible for overall risk management, we would be glad to provide you with a free trial of our products with no obligation. The results will speak for themselves and can be arranged direct, through your carrier or TPA, even if they have a national contract.

Qualifications

We employ the finest investigators and support staff in the industry and pride ourselves on our selections process and comprehensive training. Our surveillance operatives conduct surveillance 40+ hours each and every week averaging over 2000 hours per year.
