Enhance Your Products and Services with AM Best Content

AM Best's product line integrates credit ratings, commentary, research and analysis with insurance news, financial data and thought leadership to help consumers and professionals make more informed decisions. Our information options can elevate your platform and online tools to the next level.

Established and Start-Up Insurtech/Fintech Companies:

Enrich your products and services by integrating AM Best data into your risk management solutions, platform, website and/or technology environment.

- Combine your unique products and services with AM Best ratings, data, news and research.
- Include AM Best data in your data lake as a third-party source.

News and Media Outlets:

- Add AM Best news and research to your third-party publications license catalog.
- Include real-time rating actions and industry news in your user interface via *BestWire*®.

Insurance and Financial Data Aggregators/Resellers:

Provide business intelligence to your client base with access to AM Best data directly through your platform.

- Add customized, deep-sector AM Best insurance data to your current data and analytics.
- Offer your clients the option to add AM Best data for consumption within your platform.

Brokers:

Display Best's Credit Ratings as an independent, third-party opinion of insurer financial strength.

- Display ratings directly on your website.
- Include ratings and financial data in your agent/broker network insurance proposals.
