

Best's Credit Rating (BCR) Process

The typical duration from signed contract to ratings announcement is generally about eight to twelve weeks. Each interactively-rated entity is assigned to a rating analyst, who manages the ongoing interaction with company management and conducts the fundamental credit analysis as described in AM Best's rating criteria.

BCRs are initially determined and periodically updated through a defined rating committee process. The rating committee itself consists of analytical staff and is generally chaired by senior rating officers.

The committee approach ensures rating consistency across different business segments and maintains the integrity of the rating process (described briefly below).

- 1 Compile Information**
 The assigned analyst collects public and proprietary financial information and data to develop a tailored meeting agenda.
- 2 Perform Analysis**
 AM Best incorporates a host of qualitative and quantitative measures to evaluate the organization's financial health.
- 3 Determine Best's Credit Rating**
 The AM Best rating committee ensures rating consistency and maintains the integrity of the rating process and methodology.
- 4 Disseminate Best's Credit Rating**
 If the initial Best's Credit Rating is accepted, it is distributed via the AM Best website, press releases and a number of print and digital publications.
- 5 Monitor Best's Credit Rating**
 AM Best regularly monitors the rating by continually analyzing the organization's creditworthiness.

AM Best relies primarily on information provided by the rated entity, although other sources of information may be used in the analysis.
