

Best's Financial Suite

L/H, US

Power your insurance industry research with quality data, insurer credit ratings and analytical tools from AM Best. As the only global credit rating agency focused solely on insurance, we offer insight that supports sophisticated analysis.

-  Examine the details behind insurers' Best's Credit Ratings and performance ratios.
-  Evaluate the sources of profits and trends in profitability measures.
-  Perform credit risk analysis, strategic and financial planning on a historical basis with the same reports, data and performance ratios used by AM Best's analysts during the rating process.
-  Measure a company's ability to meet its anticipated short- and long-term obligations to policyholders and other creditors.
-  Benchmark insurers against peers, industry composites or the total industry.
-  Analyze an insurer's financial leverage in conjunction with its operating leverage to assess its overall capitalization.
-  Understand corporate structures across industries; research corporate changes, mergers, acquisitions and more.
-  Gain a more meaningful perspective on group performance over time by comparing consolidated data under the current versus prior group structure.
-  Analyze and monitor the performance of the industry or particular segments.

Up to 11 Years of Annual and Six Years of Quarterly Data

- Annual and quarterly regulatory filing data (statutory as filed with the NAIC, GAAP and IFRS) for US life, fraternal and health insurers and holding companies, consolidated as filed, and AM Best groups.
- “As-Is” and “As-Was” data: Group data is restructured to reflect current structure and ownership, but we also provide data as originally filed to analyze both angles and evaluate business growth.
- Market share: Find major players in life lines and accident & health lines by region, sector and line of business; examine underwriting performance and track trends.
- Reinsurance: Evaluate the risk-sharing arrangements between insurers and reinsurers (Schedule S).
- Industry composites of aggregated results for the total industry and predominating categories.
- Combined life/health data
