

Best's Financial Suite

P/C, US

Power your insurance industry research with quality data, insurer credit ratings and analytical tools from AM Best. As the only global credit rating agency focused solely on insurance, we offer insight that supports sophisticated analysis.

- Examine the details behind insurers' Best's Credit Ratings and performance ratios.
- Monitor trends in underwriting experience.
- Bolster your planning and analysis with the same reports, data and performance ratios used by AM Best's analysts during the rating process.
- Evaluate the sources of profits and trends in profitability measures.
- Benchmark insurers against peers, industry composites or the total industry.
- Measure a company's ability to meet its anticipated short- and long-term obligations to policyholders and other creditors.
- Understand corporate structures across industries; and research corporate changes, mergers, acquisitions and more.
- Analyze an insurer's financial leverage in conjunction with its operating leverage to assess its overall capitalization.
- Analyze and monitor the performance of the industry or particular segments.
- Gain a more meaningful perspective on group performance over time by comparing consolidated data under the current versus prior group structure.

Up to 11 Years of Annual and Six Years of Quarterly Data

- Annual and quarterly regulatory filing data (statutory as filed with the NAIC, GAAP and IFRS) for US P/C single companies, title companies and holding companies, consolidated as filed, and AM Best groups.
- “As-Is” and “As-Was” data: Group data is restructured to reflect current structure and ownership, but we also provide data as originally filed to analyze both angles and evaluate business growth.
- Market share: Find major players in P/C lines by region, sector and line of business; examine underwriting performance and track trends.
- Loss reserves: Determine whether an insurer’s loss reserves are appropriate by line of business (Schedule P).
- Expenses: Uncover the true costs of providing insurance by analyzing expenses in individual and combined lines of business.
- Reinsurance: Evaluate the risk-sharing arrangements between insurers and reinsurers (Schedule F).
- Industry composites of aggregated results for the total industry and predominating categories.
